

Dear Hiring Manager,

I am writing to express my interest in the open position at your company. As a current student pursuing a B.Tech in IT, I am eager to launch my career and build a valuable skill set. I am seeking an opportunity to work in an organization that recognizes the value of hard work and trusts me with responsibilities and challenges.

As you will see from my attached resume, I have completed several personal projects and gained experience in Python, Java, C, and cloud computing. One of my most notable projects involved using machine learning algorithms to recognize handwritten alphabets and digits with high accuracy. I also worked on a team project, where we developed a website to help people plan their travel journeys more efficiently using the MERN Stack. Additionally, I led a group project that utilized AWS services to deploy a serverless web application on AWS.

In addition to my technical skills, I have completed several certifications and participated in various co-curricular activities, including completing the Google cloud challenge, attending a conference on Blazor, and being a student representative of the Internal Complaints Committee. Furthermore, I have achieved third position all over India in the Kathak Dance Prabhakar exam conducted by Prayag Sangeet Samiti and earned problem-solving badges on LeetCode.

I am excited to apply my skills and experience to the open position at your company. I believe that I can make a valuable contribution to your team and am eager to learn and grow with your organization. Thank you for your consideration.

Sincerely,

Pramiti Sirothia
